

10 mm

Design tips to help speed up your order!

- 1/ At the top of the tag approx 10mm is needed for the hole and the die cut corners (if you want them) please account for the position of these in your design
- 2/ Please keep all text at least 2mm in from the edge of the tag
- 3/ If you are supplying the artwork a print ready high res PDF file with 3mm bleed will help speed up your tag
- 4/ **You will always get a proof to sign off for every order so dont worry if it is not quite right**

Keep all text at least
2mm in from the edges
